Hello Merrilee:

Councillor Curry and I have had a very busy week on the heels of the flooding and Beaver Pond failure after the rainstorms of August 7 and 8. Our e-News was released yesterday and I trust you saw it.

We have concerns about many factors not the least of which is potential damage to the Provincially Significant Wetlands (PSW) west of the Beaver Pond and erosion to both the Kizell Creek downstream and adjacent residential properties in both locales.

In writing the letter below to request a meeting with the Mississippi Valley Conservation Authority (MVCA) to discuss the situation, we realized that neither of us has spoken with you directly since our meeting before the June election.

I must admit, I am hearing from many constituents who are disappointed in the continued lack of a PC Ontario position supporting our community having given both you and the Ford government their support.

We would like to speak about that and the ongoing and tenuous situation around development and SWM in Kanata North.

Today, we'd welcome your involvement and support on the issue. We have photos and great concerns that you are welcome to use in your discussions at Queen's Park.

Let us know when you have an appointment available. While in person is always welcome, Zoom may be easier for all.

We look forward to hearing from you and hope you are enjoying the summer.

Barbara
